Tangier, 22nd.—The struggle with

the Anglars tribes is considered over.

The Sultan has been forced to yield to

the demands of the Anglars, and will

now be able to return to the capital.

The brilliant reception given to the

French Minister by the Sultan has caused

much excitement. No foreign Minister

has ever been received with such

honor, and this is considered as a sign

that the Sultan wishes to secure the

support of France against England.

Paris, 22nd.—Advices from all parts

of Europe show that this summer is

exceptionally hot. In France, Germany,

Austria and Russia numerous cases of

sunstroke have occurred.

London, 22nd.—News from India

about Afghan affairs and the encounters

between the Russians and Chinese are

more reassuring and it is hoped that

the "status quo" will be maintained.

New England wheat is quoted at 32

shillings the bushel, 8 shillings less

than last year.

The elections of Northampton are very

interesting. The Liberal members have

been excluded from the Cabinet. The

Radical members and those of the working

men are disgusted with Gladstone's

residence since he resumed power.

Rome, 22nd.—Premier Giolitti has

delivered a speech at Ancona which has

caused a favorable impression. He said

that he found a notable improvement in

the finances and that the situation was

not critical as the enemies of the

Government wished to make out. He

mentioned some of the reforms he

intended to introduce, and wound up

by saying that, if the situation continued

to improve, there would be no necessity

for any more reforms.

Among the matters which have caused

strained relations between the Govern-

ment and Congress in the Grumbein

concession by which the Government

paid 4,000 sq. miles of land in the

Sanza territory, Patagonia.

The concession has been questioned

because the Government has not

yet paid the 4,000 sq. miles of land

which it has promised to pay.

Castelar and other Spanish celebrities

are among the guests of the

Government at the Palace of the

President.

Vienna, 22nd.—A new Servian

ambassador has been appointed to

Belgium.

The Congress of 22nd (evening) in

Spain for the purpose of settling the

dispute between the provinces of

Spain and Portugal, is expected to

be a success.

London, 22nd.—It is expected that

John Morley will find it difficult to

be re-elected for Newcastle.

The Conservatives are very discon-

tinced with the list of honours con-

ferred by Lord Salisbury on leaving the

Government.

It is said that the new Government

will have nothing to do with the

International Monetary Conference.

The Radicals are very angry with

REVIEW FOR EUROPE.

We regret to say that a conflict has

occurred between Congress and the

Executive, with reference to the

Ministerial Department of the Navy.

The Minister of War refused to attend

the House for an interpellation on the

subject, and President Pellegrini sent

a Message to the Deputies, complaining

that when the Finance Minister attended

the House, some days ago, one of the

Deputies stated that the Minister had

not spoken a word of truth. The House

of Deputies refused to accept the Mes-

sage, and insisted on the attendance of

the Minister of War. Thereupon Presi-

dent Pellegrini resigned the Govern-

ment, but yesterday he consented to

withdraw his resignation.

Congress has not yet taken up the

budget for 1893. Possibly it may be

deputed to postpone the matter until

the accession of the new President, in

October, when it will certainly be

expedient to lay down some definite

system of finance for the future.

propose to President Saez Peña a new

1896, where by the Argentine Govern-

ment would be obliged to pay 3 per

cent in gold and 3 per cent in

Mortgage scrip.

the President's Message last May, was

ARGENTINE TRADE-RETURNS.

HALF-YEAR ENDING JUNE 30th.

The usual half-yearly returns were issued yesterday, and show a comparison with the corresponding half-year of 1933 as follows:

	June 1934	June 1933
Imports.....	32,200,000	27,000,000
Exports.....	32,200,000	32,200,000
Total trade.....	64,400,000	59,200,000
Duties.....	23,940,000	43,530,000

The ratios of increase are as follows:

Imports..... 14 per cent.

Exports..... 81 per cent.

The increase of revenue is very much greater than that of the half-year of 1933.

Some items show a notable increase, as, for example, the following:

	June 1934	June 1933
Rice, tons.....	5,800	7,300
Sugar.....	6,000	12,500
Coffee.....	1,000	1,400
Tea.....	100	1,100
Verba.....	7,000	11,000
Pepper.....	100,000	250,000
Iron.....	7,000	10,500
Wool.....	1,200,000	2,210,000
Wine.....	3,200,000	4,840,000

The increase in sugar and wine is gratifying to see that there is an increase of 50 per cent in wool, 115 per cent in iron, 84 per cent in pepper, 80 per cent in kerosene, all articles of primary importance.

It may be advantageous to compare the values of the principal branches of imports, thus—

	June 1934	June 1933
Groceries.....	3,700,000	5,650,000
Wines.....	1,500,000	2,400,000
Dry goods.....	1,500,000	1,400,000
Lumber.....	1,500,000	1,400,000
Hardware.....	2,200,000	3,500,000
Coal.....	1,200,000	1,100,000
Railway material.....	5,500,000	1,100,000
Metals.....	4,300,000	5,820,000
Summing.....	32,200,000	27,000,000

If we deduct railway material it will be seen that the imports have increased nearly 50 per cent, viz—

There is a marked decline in wool and mutton, but the more noteworthy decrease, exaggerated rumors, have been diligently circulated by the Government organs on these subjects.

We always called attention to the fact that the wool clip of 1931-32 would be found to reach 400 million lbs. In the above table we find that the clip of 1931-32 was 400 million lbs. The quantities exported were—
